

Aurora

SWIM SPAS

The 4.4m Aurora single zone swim spa gives you the incredible experience of Galaxy's inverter swimming system, providing a powerful yet smooth continual flow of water. Featuring four patented turbo jets and two variable pumps, the swimmer can increase or decrease water pressure via 10 speed settings to suit ability or intensity preference. Whilst the same compact length as the Calypso model, the Aurora boasts an additional 30cm depth, making it well-suited to adult swimmers. 25 massage jets gives you the hydrotherapy you need to recover, relax and rejuvenate.

Actual model may vary to photo.
