

# Calypso Minor

SWIM SPAS

The single zone Calypso Minor is Galaxy's entry level swim spa. At 4.4m long and with two patented turbo jets and two standard 3HP pumps, it is designed for our customers who are looking for a low energy consuming swim spa or a small swimming pool alternative. You'll also benefit from a blissful hydrotherapy experience with its 30 massage jets. If the exercise capabilities of a swim spa are important to you, we recommend considering a 4.4m model with our inverter swimming system, such as the Calypso or Aurora.

Actual model may vary to photo.
