

Calypso

SWIM SPAS

The Calypso single-zone swim spa offers you all of the exercise capabilities of a swim spa in a compact 4.4m length. Complete with Galaxy's inverter swimming system, it's a step up in swim experience compared to the Apollo model. With three patented turbojets and one variable pump, the swimmer can increase or decrease water pressure via 10-speed settings to suit ability or intensity preference, all while enjoying a powerful yet smooth continual flow of water. The Calypso also has 35 massage jets to provide relaxing and restorative hydrotherapy.

Actual model may vary to photo.
