

The single-zone Apollo is Galaxy's entry-level swim spa. At 4.4m long, with three patented turbojets and three standard 3hp pumps, this swim spa is perfect for customers looking for a low energy consuming option or small swimming pool alternative. The Apollo also has 35 massage jets to provide a blissful hydrotherapy experience. If the exercise capabilities of a swim spa are important to you, we recommend considering a 4.4m model with our inverter swimming system, such as the Calypso or Aurora.

Actual model may vary to photo.

\$27,995
