

Prospero PLUNGE POOL

Galaxy's plunge pool range is specifically designed as a swimming pool alternative for customers who don't want the hassle or cost of in-ground work. Instead of seats at one end of the mould, they feature wide steps, creating maximum space for swimming. The Prospero is Galaxy's largest plunge pool at 5.85m long. Complete with Galaxy's inverter swimming system, swimmers will benefit from a powerful yet smooth continual flow of water. Three patented turbojets and one variable pump allow the swimmer to increase or decrease water pressure via 10-speed settings suit ability or intensity preference.

Actual model may vary to photo.

\$47,995
