

# Solarium

LUXURY SERIES

The Solarium is part of Galaxy's Luxury series, with its sleek cabinetry and stunning mould creating a sophisticated look in your outdoor space. Like the Elite series spas, the Gecko smart controller adds superiority over Premium Series pools, with WiFi capability and one-touch settings that improve economy and keep track of essential spa maintenance. Another benefit is its pump configuration, with two 3hp massage pumps providing an enhanced massage experience via the Solarium's 50 jets. One of the pumps is a two speed pump, allowing you to use a half speed option. This moves water more slowly through your filtration system, for better filtration, and also uses less energy.
